

Bolt Caps

Productive Protection

Take the clear road to quicker, easier all weather and safe construction now

Tapon Bolt Caps are available globally for both cellulosic and hydrocarbon protection direct or via distributors

Method of fire protection for connection problems

Bolt Caps solve issues you may be having with poor architectural appearance, inconsistent thickness of coating, poor quality bolt protection, areas difficult to access, coating cracking and threads uncoated

Extensively tested, evaluated and accepted

- Lloyds Certified
- Extensively Tested and Evaluated
- Accepted by Major Global Companies
- Specified by Major Engineering Consultants
